Orion 4 bed 4 bath Luxury Villa Hacienda Del Alamo

This is one of the most spectacular properties we have ever had the privilege to market. This is a 4 large bedroom with 4 bathrooms spread over a large 282M2 area and on a 1435M2 plot one of the largest plots on the resort. The house has been tastefully decorated and enhanced from top to toe.

At the front, there are 2 electric gates and a u shaped in/out driveway for ultimate convenience.

The garden may possibly be the outstanding feature although it's all pretty special. The garden has a large kitchen BBQ area leading to a covered dining area which in turn overlooks the pool.

There is an amphitheatre style sunbathing area in the middle of the garden plus play areas, rockeries and some wonderful trees shrubs and flowers. There is also a very large lounge area immediately outside the doors from the living area. It's difficult to do it justice with words so please study the photos or better still come and take a look

Inside the house is spacious very nicely finished and decorated. The lounge area has glass across 2 walls given a wonderful bright aspect toward the wonderful garden.

There are various attachments, floor plans pdf's etc below where you can find more details.
